Dear parent/guardian,

We would like to offer your student an opportunity to experience the exciting technology of making iMovies, Public Service Announcements, eBooks published to iTunes and learning to code with Scratch **this summer for free**. We will provide all the technology, apps and software. We are looking for a strong commitment for the entire length of the program due to the advanced level and compressed timeframe. Missing one lesson may cause your child to have difficulty with subsequent lessons.

We will explore using technology in a fun and exciting way. By learning the code programming of Scratch students can create a wide variety interactive media projects, - animations, stories, games and more. We will discover what a Public Service Announcement is and how to get across a clear, concise message. Also, students will study how to make an eBook with movies embedded inside of the book and get published for free downloads for friends, families, classmates and teachers. Furthermore, we will be making iMovies for the school news and classroom to use for the 2017-2018 school year. The summer program will culminate with students learning to code in the program called Scratch, so they may eventually be able to build their own mutli-media games with a positive message.

The program will take place **June 12th through June 22nd**. Students will participate Monday-Friday from 7:45am-11:15 am. Students may walk, car ride or use transportation provided. We will meet at Chasco Middle School in the Media Center. Promptness is expected. **Light breakfast and light lunch snacks will be provided.**

We intend to use the summer technology program to prepare and help launch our fall Kindness Campaign. We are going to use the student-created work through-out the upcoming school year as part of our student led and inspired be kind to others campaign. Spots are limited. We hope you join us!

Please return the lower half of this letter to Mrs. Mallon, Mrs. Clark or Mrs. DeCresie ASAP to attend.

Yes, I plan on attending No, sorry I can't make the commitment

Student Name: _____ Student Number _____

Summer contact information:

Address _____

Parent Phone number _____ Parent Cell number _____

Parent/Guardian Printed Name _____

Parent/Guardian Signature _____

Transportation Required: _____ Please circle one: Yes or No

*We will contact you about 1 week before to arrange transportation time if selected yes.
